Worlds largest selection of styles and sizes of plastic pallets available.
Visit www.pallets.com to see them all.

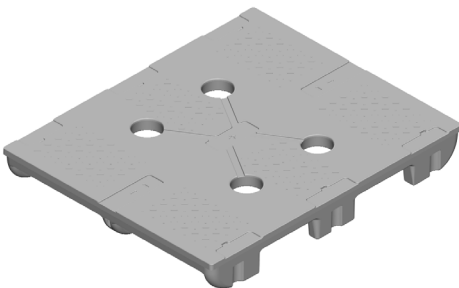

Rotonics Manufacturing plastic pallets are one piece, solid wall molded and have the right combination of rigidity and flexibility to be rackable yet not crack like other plastics. These pallets are optimal for raw material storage and work in process, and will help you get the job done.

- Clean and sanitary
- HACCP/FDA/USDA approved plastic
- Withstand temperatures down to -40°
- Patented safety stacking features
- 10+ years life
- Rackable
